## Proform v1.93 builds 1-5 Release Notes

### 1.93 Build 5 Release Notes

Added Distance Won by to **Horse Form, Prior Form, InRunning Form**

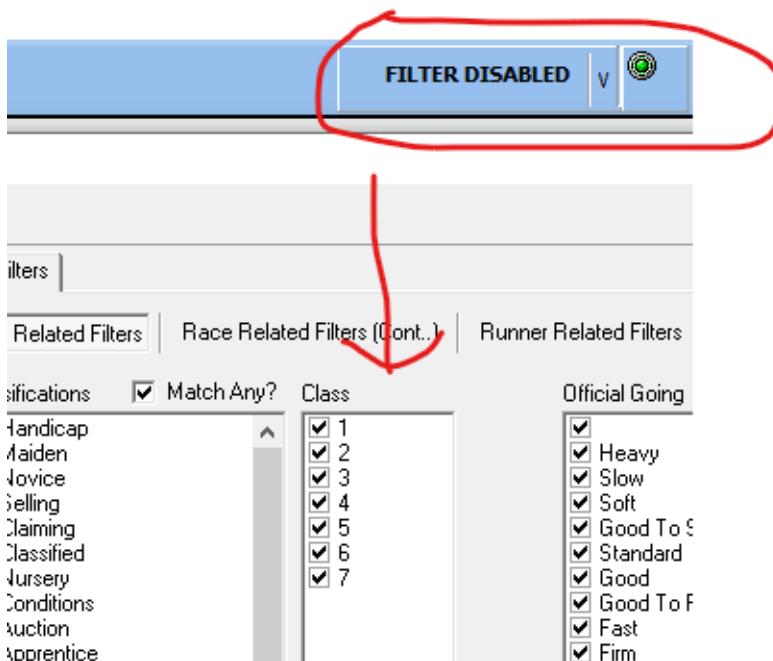

Added Distance Won By field which if the horse won will be the winning distance otherwise 0

Date	Course	Pos	Distance_Won_By	Spd Rat	ParDiff	F
26/12/2024	Wolverhampton	1	4.75	59	0	
18/11/2024	Wolverhampton	2	0.00	58	-1	
15/10/2024	Leicester	1	0.30	55	-6	

Changed Class Filters in the **FormBook Filter Screen**

Changed to use class numbers rather than the old legacy class letters.

Added to more user ratings, **User Ratings 5 and 6**

Added User Ratings 5 and 6, which are decimal ratings like UR4

UR5 and UR6 added to many screens, exports, system builder etc, see additional help below.

## Proform v1.93 builds 1-5 Release Notes

### System Builder **Speed and User Ratings Tab**

Added UR5 and UR6 and LTO for the same to this screen for values, ranks and clear by's.

The screenshot shows the 'Speed and User Rating Filters' interface. It features several sections for configuring filters:

- Static Speed Ratings by Rank:** Includes fields for HA Career Best Ratings, HA Last 1 Year Ratings, MR Career Best Ratings, MR Last 1 Year Ratings, MR Last 3 Runs Ratings, Last Time Out Ratings, 2nd Last Time Out Ratings, 3rd Last Time Out Ratings, and 4th Last Time Out Ratings.
- Static Speed Ratings by Value:** Includes fields for HA Career Best Ratings, HA Last 1 Year Ratings, MR Career Best Ratings, MR Last 1 Year Ratings, MR Last 3 Runs Ratings, Last Time Out Ratings, 2nd Last Time Out Ratings, 3rd Last Time Out Ratings, and 4th Last Time Out Ratings.
- Users Ratings by Rank:** Includes fields for User Rating 1 through User Rating 6.
- Users Ratings by Value:** Includes fields for User Rating 1 through User Rating 6.
- Last Time Out Ratings:** Includes a field for Last Time Out Speed Rating.
- Last Time Out Users Ratings by Rank:** Includes fields for User Rating 1 through User Rating 6.
- Last Time Out Users Ratings by Value:** Includes fields for User Rating 1 through User Rating 6.

A red circle highlights the 'Users Ratings by Rank' and 'Last Time Out Users Ratings by Rank' sections.

### System Builder **Race Tab** Distance Droppers/Risers

Added distance droppers/risers by furlongs

Enter 0 in distance dropping field to look for same distance as LTO

The screenshot shows the configuration interface for Distance Droppers/Risers. It includes the following elements:

- Dropping in Distance by:** A text input field with a blue background and a red note below it: "(Enter 0 in dropping in distance to look for same exact distance as LTO)".
- Rising in Distance by:** A text input field with a blue background.

## Proform v1.93 builds 1-5 Release Notes

### System Builder **Race Tab** Class Droppers/Risers

You can now enter 0 in class dropping field to look for same class as LTO

Dropping in Class by  
 or more  
(Enter 0 in dropping in class to look for same class as LTO)

Rising in Class by  
 or more

### Exporter

Added comments In Running (with commas) to the exporter at the bottom of column 2

Added Travelled Distance to the exporter at the bottom of column 2

Added User Rating 5 and 6 values and ranks to the exporter at the bottom of column 2

Added Last Time Out (LTO) User Rating 5 and 6 values and ranks to the exporter at the bottom of column 3

Fixed export of DSLR field, which was wrong when a horse was a non-runner within 2 days of then actually running.

Added Actual Going LTO (Same Code)

Added Actual Going 2nd LTO (Same Code)

Added Actual Going 3rd LTO (Same Code)

Added Actual Going 2nd LTO

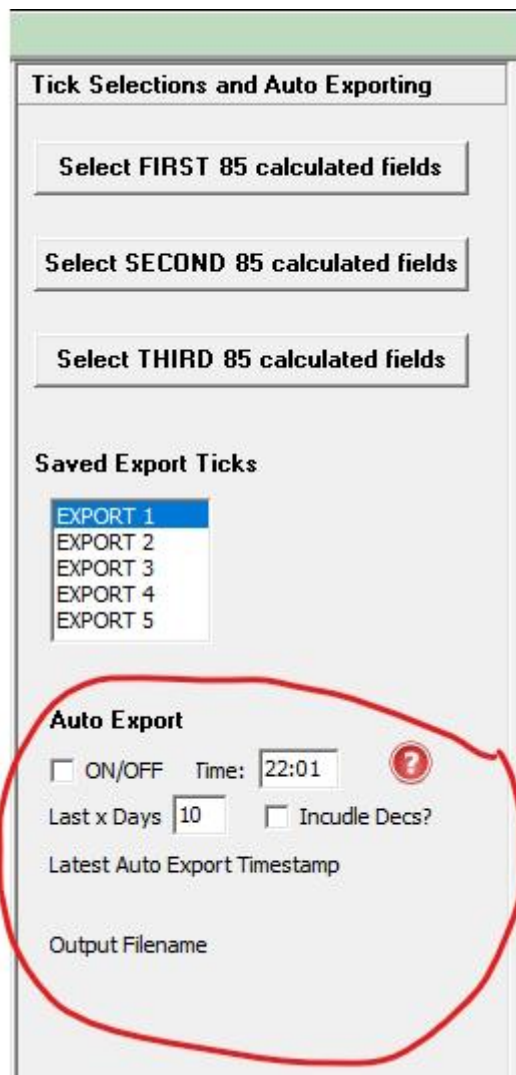

Added Actual Going 3rd LTO

<input checked="" type="checkbox"/> HcapNonHcap	<input checked="" type="checkbox"/> SpeedRating 3rd LTO (Same Code)
<input checked="" type="checkbox"/> HcapNonHcapLTO	<input checked="" type="checkbox"/> User Rating 5 LTO
<input checked="" type="checkbox"/> RaceTypeLTO	<input checked="" type="checkbox"/> User Rating 5 Rank LTO
<input checked="" type="checkbox"/> Par	<input checked="" type="checkbox"/> User Rating 6 LTO
<input checked="" type="checkbox"/> Comments In Running (with commas)	<input checked="" type="checkbox"/> User Rating 6 Rank LTO
<input checked="" type="checkbox"/> Distance Travelled	<input checked="" type="checkbox"/> Actual Going 2nd LTO
<input checked="" type="checkbox"/> User Rating 5	<input checked="" type="checkbox"/> Actual Going 3rd LTO
<input checked="" type="checkbox"/> User Rating 5 Rank	<input checked="" type="checkbox"/> Actual Going LTO (Same Code)
<input checked="" type="checkbox"/> User Rating 6	<input checked="" type="checkbox"/> Actual Going 2nd LTO (Same Code)
<input checked="" type="checkbox"/> User Rating 6 Rank	<input checked="" type="checkbox"/> Actual Going 3rd LTO (Same Code)

## Proform v1.93 builds 1-5 Release Notes

### Added auto export functionality to the exporter

In the exporter you can setup a daily automatic export using the fields at the bottom of the Tick Selections and Auto Exporting column.

**Tick Selections and Auto Exporting**

Select FIRST 85 calculated fields

Select SECOND 85 calculated fields

Select THIRD 85 calculated fields

**Saved Export Ticks**

- EXPORT 1
- EXPORT 2
- EXPORT 3
- EXPORT 4
- EXPORT 5

**Auto Export**

ON/OFF Time: 22:01 ?

Last x Days 10  Include Decs?

Latest Auto Export Timestamp

Output Filename

### How does it work?

- Enter the time you want the export to start each day in the format hh:mm using a 24 hour clock time..
- Enter the number of days backwards in the last x days box (defaults to 10).
- If you want to export declarations then tick the Include Decs box and the export will look 2 days forward as well as backwards..
- Leave the exporter screen open otherwise the auto export will not run.
- Tick the ON/OFF box to turn on the auto export and the calendar dates will be setup to the last x days etc.

## Proform v1.93 builds 1-5 Release Notes

- If you wanted to setup a adhoc export of a variable date range then set the Last x Days to 0 and then choose the dates you require and tick the Start Date and End Date tick boxes.
- If you leave Proform and the export page open then everyday the dates to export will move forward when the auto export starts.

### What folder does the exported data appear in?

- The export file will be given the date it ran as a name and exported to the folder c:\proformp\exports.
- The status updates underneath the auto export fields will tell you the time it finished and confirm the output folder.

### System Builder Preferences Tab

Added Class Par to the system builder preferences tab for drilldowns

Added Class Par Difference to the system builder preferences tab for drilldowns

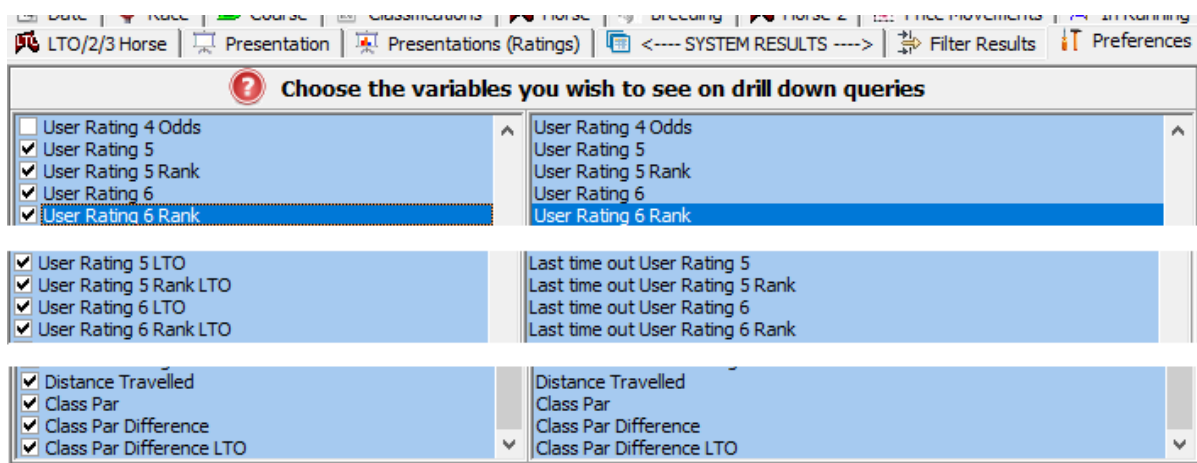

Added Class Par Difference LTO to the system builder preferences tab for drilldowns

Added Travelled Distance to the system builder preferences tab for drilldowns

Added User Rating 5 and 6 values and ranks to the system builder preferences tab for drilldowns

Added Last Time Out (LTO) User Rating 5 and 6 values and ranks to the system builder preferences tab for drilldowns

Fixed hcp/non hcp LTO in the system builder preferences tab for drilldowns

## Proform v1.93 builds 1-5 Release Notes

### System Builder **Horse Tab**

Add Speed Ratings vs Class Par (used for researching)

Speed Ratings vs Class Par  (Enter 0 for = to class par or +/- values)

### System Builder **LTO/2/3 Horse Tab**

Added 2nd LTO and 3rd LTO finishing positions to LTOHorse tab in system builder.

Added 2nd LTO and 3rd LTO pace abbreviations to LTOHorse tab in system builder.

The screenshot shows two filter sections: "2nd Last Time Out Filters" and "3rd Last Time Out Filters". Each section includes a text input for "Finishing Pos:" and a dropdown menu for "Pace Abbrev" with options H, L, and P, all of which are checked.

Add LTO Speed Ratings vs Class Par

The screenshot shows the "Last Time Out - Horse, Jockey and Trainer Filters" section. It includes fields for "LTO Jockey Name:", "LTO Trainer Name:", "LTO Odds (SP):", "LTO Finishing Pos:", and "LTO Pace Abbrev". A new field, "LTO Speed Ratings vs Class Par", has been added with a text input and the instruction "(Enter 0 for = to class par or +/- values)".

# Proform v1.93 builds 1-5 Release Notes

## System Builder Presentations

Added Class Par Difference presentations to presentation tab.

Added Class Par Difference LTO presentations to presentation tab.

Added 2nd LTO and 3rd LTO finishing position presentations to presentation tab.

Added 2nd LTO and 3rd LTO pace abbreviations presentations to presentation tab.

## Tote Direct Links

The Tote changed their URL structure which broke the links in Proform!

This is now fixed and will work only when you are on a race which is running today.

## Proform v1.93 builds 1-5 Release Notes

### 1.93 Build 4 Release Notes

#### Replay Links

Some replay links for Irish courses did not work, fixed.

### 1.93 Build 3 Release Notes

#### TOTE Direct Betting Slip Links

We have now added direct links from a horse in a race to a betting slip on the Tote website from the race cards in Proform for Platinum members.

YORK (LH - Galloping) (Wednesday 15 May 2024)  
15:45 Tattersalls Musidora Stakes (Fillies' Group 3) (Class A) (Class 1)  
1m 2f 56y  
Turf [New Class A / 1] (Speed Class Par: 76)

#	Draw	Draw IV	Form	Horse	User Rating 2	CIMv	Trav
3	7	0.98	1-1	 Friendly Soul		0	16
1	5	1.19	214-	Classical Song (IRE)		0	25
5	3	1.47	4-22	Mayfair (IRE)		-4	
6	2	1.40	61-3	Secret Satire		-1	21
4	4	0.98	18-	La Pasionaria		0	25
7	1	1.19	5-1	Sinology		-3	16
2	6	1.12	125-1	Francophone		-2	4

You will see the Tote icon next to a horse's name in the race cards in dataview.

Click on a horse and **press T on your keyboard** and the tote website will open on the correct race and add the selected horse to the betting slip.

**If you have requested Tote Pro Player access exclusive to Proform Platinum members then your Tote bets will be settled at API enhanced rates, read more on this below.**

## Proform v1.93 builds 1-5 Release Notes

The screenshot displays the Tote website's betting interface. At the top, there's a red navigation bar with the Tote logo and menu items like 'Racing', 'Sports', and 'Colossus'. Below this, there are tabs for 'Races', 'Bet Types', 'Results', 'Promotions', and 'More'. The main content area shows a race card for York at 15:45, featuring a 'win/place' bet type. A specific bet slip is shown for 'Friendly Soul' with a win stake of £2.80 and a place stake of £13.40. Below the bet slip, there's a table of horses and their odds:

No.	Silk	Horse / Jockey / Trainer	F	OR	SPR	Guide	Win	Place
3		Friendly Soul J K Shoemark T J & T Gosden	1-1	-	121	8/11	\$2.80	£13.40
1		Classical Song J Rossa Ryan T R M Beckett	214	102	112	9/2	\$5.50	\$1.02
5		Mayfair J R L Moore T A P O'Brien	4-22	87	102	7/1	\$8.00	-

### TOTE Pro Player Access Exclusive to Proform Platinum Members

We have teamed up with the Tote to secure Proform Platinum members Enhanced Tote API prices when you bet with them.

We touched on this in the previous update, but you had to bet via a uploaded csv file, well now you can bet direct on the Tote's website and add a horse to a betting slip direct from Proform has explained above.

***You will need a Tote Pro Player account setting up and WE will need to inform the Tote of your interest if you wish to receive the Exclusive Enhanced Tote Prices that Proform Platinum members are afforded!***

To activate a Tote Pro Player account with the Tote please get in touch with us via the email address [proformracing@gmail.com](mailto:proformracing@gmail.com) and provide us with your *tote account email address so the Tote can setup Pro Player access.*

### More Info

Once you have the Tote ProPlayer function enabled, any bets placed using your Tote account online (or mobile web) can be settled at the API enhanced rates.

We had feedback to suggest API customers wanted a faster way to place their Tote bets. This solution means you can place bets in a simple fashion but still receive the enhanced dividend schedule. You simply log-in and bet.

Of course, the ProPlayer tool is still active and working. This remains a great option for larger perms and multilegs but you may prefer to use the Tote website for fast placement of win/place pool bets. Also easier to use from your mobile if out and about. Important to note that bets struck via the Tote app will not get the enhanced dividends – its web/mobile web only.

## Proform v1.93 builds 1-5 Release Notes

As we continue to develop this option, there are a few points to raise if deciding to use this method of bet-placement.

When bets are struck, you will receive a receipt confirming the bet detail starting with 'Partner API' along with a ticket number. These bets won't show up in the open bets or settled bets box on the web page. You will find the detail of the bet in the racing bets history option in your account.

Placepot and Quadpot bets, similarly, won't appear and customers won't have the end-to-end journey of leg-by-leg confirmation of success or failure. Again, bets and leg selections will all be detailed in the racing bets history.

For the Win Pool, dividends shown on the web page are standard dividends with the SP guaranteed layered on top. API settlement does not include SP guarantee. Be aware that larger wagers into small pools may result in returns that are less than SP even with the dividend enhancement. We are working hard to get live API prices into later versions of this solution.

Finally, the bets do take a few seconds to place as they are getting rerouted to the API, so please be aware to allow enough time to get bets on.

We hope you find this update useful and try the new bet-placement option through your regular Tote account. If you have any questions or feedback on anything to do with Tote API, please get in touch.

### 1.93 Build 0 Release Notes

#### TOTE Enhanced Prices

We have partnered with the Tote, which means Proform Platinum members can bet with the Tote at enhanced prices!

Betting at enhanced Tote prices would hold value for those that face the Betfair premium charge and want to run systems / models that win at SP.

The Tote enhanced prices should make any marginal systems to BSP a lot more attractive.

There are also no restrictions or waiting to get bet filled as the dreaded bots move prices away from your order.

We have added Tote win, place, and exotics prices into Proform and you can run system builder queries and see profit/loss outputs for win and place Tote enhanced prices.

#### Tote Enhanced Prices Abbreviated Field Names

**TEW** is the **T**ote **E**nanced **W**in price from the Tote.

**TEP** is the **T**ote **E**nanced **P**lace price from the Tote.

**TDIV** is the **T**ote **D**IVidend flag, which signifies that this was a payout price from the tote.

We have used these three abbreviated field names everywhere we display Tote enhanced prices in Proform.

#### Where can you see the Tote enhanced prices?

When looking at a result in the dataview in the formbook you can see new field columns called TEW, TEP and TDIV. (NOTE: They will be initially added at the end of the columns but can be moved to any position)

Horse	Odds	+/-	BSP	TDIV	TEW	BPSP	TEP
The Lord Maid (IRE)	7/1	3.05	8.60	1	9.40	2.69	2.78
Lep Around (IRE)	12/1	31.72	19.50	1	15.43	4.14	2.78

- Present by Tote enhanced prices via buttons in the presentation tab.
- Output Tote enhanced prices via system builder drilldowns or the exporter.

## Proform v1.93 builds 1-5 Release Notes

### Scope of TOTE Data

TOTE Win and Place Enhanced Prices are available in Proform from 04/11/2023.

Additionally, also covered is Cheltenham 2023 (*NOTE: Place odds are missing for all races on the 16th March*)

We will be adding more past tote prices for big meetings and world pool meetings soon.

### How to Bet and receive Tote Enhanced Prices

Proform customers who have a Tote account or create a Tote account can place bets initially through a Pro Player portal using csv files containing bets to be placed. It is a little complex at present, but the Tote are avidly working on a simplified solution for Proform customers.

To activate a Tote Pro Player account with the Tote please get in touch with your *tote account email address so the Tote can setup Pro Player access.*

Send it to us via the email [proformracing@gmail.com](mailto:proformracing@gmail.com)

More information on the Tote Enhanced prices can be found on this link [Tote-API-Doc](#)

For details on how to place bets via the API use the [Pro Player Guide on this link.](#)

## Proform v1.93 builds 1-5 Release Notes
