Proform Race Guides v2

Contents

Proform Race Guides v2

This manual encompasses all the changes we have made to the Proform Race Guides at the launch of version 2.

1 - Pace Maps

We have moved the 50%SR for draw stats next to the PRB (percentage of rivals beaten) column and the pace squares have been replaced with a gradient filled line.

We have added the power rating rank of each horse Inside the gradient pace lines.

Draw Bias and Pace Prediction

#	Horse	Silk	Draw	IV	PRB	50%SR	Bias	Pace	H	M	P	L
7	Athmad (IRE)		1	0.91	45%	40%		2	12			
1	Dawaaleeb (USA)		2	0.77	47%	35%		4		5		
8	Tangled (IRE)		3	0.91	47%	42%		0	9			
10	Paddyplex		4	1.12	48%	39%		4		3		
9	Champagne Rules		5	1.19	53%	39%		0	7			
3	Global Art		6	0.91	50%	34%		2		6		
12	Etikaal		7	0.91	50%	35%		0	10			
11	Aegeus (USA)		8	1.26	53%	41%		2		11		
6	Paparazzi		9	0.97	49%	42%		2	2			
2	Helovaplan (IRE)		10	1.40	53%	44%		8			8	
5	Little Jo		11	0.58	52%	50%		4		1		
4	Samphire Coast		12	2.06	58%	59%		6			4	

2 – CD colours on race card

We have changed the colour of the letter C for Course on the racecards to match the lilac of the D. This will standout better than the previous colour.

	#	Horse
☑	2 (1)	Major Power (IRE) [21] C
☑	5 (12)	Red Cymbal [7] tbWS C D
☑	8 (10)	Eacharn (IRE) [21] p C D

Proform Race Guides v2

3 – Three new tabs

There are three new tabs, which contain all the new features. They are positioned at the beginning of the current tabs.

HORSE FORM	ALL FORM	SUMMARY	HORSE STATS	HORSE GOING	POS/ NEG

HORSE FORM will show you the form of the currently selected horse from the race card at the top.
When a race card is opened the first horse at the top of the list will be pre-selected and highlighted.

The horse form tab also contains three more sections for filters, trading / form benchmarks and horse details.

ALL FORM will show the form for every horse in the race.

The all form tab also contains a filter section.

SUMMARY will show a summary of benchmarks and filtered benchmarks for all horses in the race.

The summary tab also contains a filter section.

Proform Race Guides v2

4 – Horse Form Tab
Sections

#	Horse	Form (A/W)	PRB	Silks	Age	Wgt	Trainer
☑	1 (7)	Lady Maura (IRE) 21	53-6	56%		3	9.12	J P Murtagh
☑	9 (6)	Lazy Susan (IRE) 28	8-50	45%		3	9.3	Richard John O'B
☑	5 (11)	Briseuse De Coeur (IRE) 14 tp	6-3593	61%		3	9.6	Madeleine Tylicki

and finally

Horse Form
A line of form for each run the horse has had.

Proform Race Guides v2

Sections – Expanding and Collapsing

To save space you can expand and collapse the Filters, Benchmarks and Horse Details sections by clicking on the heading to collapse and vice-versa. The expand and collapse settings will be remembered the next time you use the race guides.

When all three sections are collapsed you can see more horse form and the navigation tools underneath.

Navigation Tool

The navigation tools allow you to decide on how many lines of form you see before it is presented in pages.

You can choose 10, 20, 30, 50, 100 or 200 lines of form and this setting will be remembered the next time you use the race guides.

Proform Race Guides v2

Columns Descriptions

There are many columns in the horse form tab and most have tooltips, can be hidden, moved and sorted descending or ascending.

Lets first run through each column heading and what data it contains, in blocks from left to right with the fields in their default order.

The date column is fixed so that when you scroll sideways the date remains fixed, so you know which line of form you are looking at.

Date, Speed, Pace, Draw and Race Type

Distance, Going, Weight / Headgear, Official Rating and Finishing Position

Proform Race Guides v2

Percentage of rivals beaten, Jockey, Trainer (14/28/56 day PRBs) and SP (Price Movements)

PRB	Jockey	Trainer (14/28/56 Day PRBs)	SP (Price Movements)
100%	Rowan Scott	Sharon Watt (37%) (0% / 60% / 53%)	6/1 (8/1 - 8/1 - 8/1)

Jockey Name

Percentage of rivals beaten in this race

Trainer then in brackets their overall percentage of rivals beaten in the last 5 years (will be a shorter period if they have been training less than 5 years).

Underneath from left to right are the trainers percentage of rivals beaten in the last 14, 28 and 56 days.

All %'s are colour coded green (good), amber and red (poor).

The industry SP of the horse.

Underneath from left to right, the evening (8.30pm), breakfast (7.30am) and morning (10.30am) prices from bookmakers with a green arrow for dropping in price and red for increasing in price.

Betfair SP and Place SP, High and Low In Running Price, Percentage and Ticks

BSP (Place)	High (Th) / Low (Tl) (%H / %L)
8.50 (2.70)	8.40 (0) / – (-1.18% / -)
7.66 (3.36)	– / 4.80 (20) (- / -37.34%)

For winning lines of form this will show the high in running price (number of ticks higher than BSP) Underneath the % higher in running.

For losing lines of form it will be the low in running price (how many ticks lower in running) Underneath the % lower in running.

Betfair SP (Betfair Place SP)

NOTE: These data fields are colour coded.
Gold if the horse trobbed.
Green if the horse dobbed and Red if it did neither.

Proform Race Guides v2

Course, Distance, Class, Going, Race Type, Runners, Official Rating and Weight

This section shows a comparison to today's race conditions for each line of form.
We have split it into two to fit in the explanations.

C	D	Cl	G
✓	-	1	✓
-	1	1	✓
✓	-	1	✓

NOTE: These data fields are colour coded.
Gold if the horse trobbed.
Green if the horse dobbed and
Red if it did neither.

A green tick if this line of form was on going the same as today's.

A green tick if this line of form was at today's course

Form at today's distance within 1/2 furlong either side.
Blue if longer trip and negative red if shorter.

The difference in class of this line of form to today's race.
Blue if down in class and negative red if up in class.

RT	R	O	W
✓	✓	-	6
✓	✓	-	6
✓	✓	-	11

NOTE: These data fields are colour coded.
Gold if the horse trobbed.
Green if the horse dobbed and
Red if it did neither.

The difference up and down in weight in pounds of this race compared to today's.
Blue if higher and negative red if lower.

A green tick if this line of form was the same race type as today's.

A green tick if this race was within 25% today's number of runners.

The difference up and down in official ratings of this race compared to today's.
Blue if higher and negative red if lower.

Proform Race Guides v2

Runs, Wins, Places, Win Strike Rate, Win/Place Strike Rate, A/E, PRB

This section shows how this line of form is working out. Future Form.

R	W	P	W SR	WP SR	AE	PRB
3	0	0	0.00%	0.00%	0.00	44.70%
15	2	4	13.33%	40.00%	0.92	57.25%
15	0	4	0.00%	26.67%	0.00	47.43%

NOTE: This section is colour coded using the percenatge of rivals beaten figure.

Green is good, so the race is working out well.

Amber is neutral.

Red is poor.

Number of runners, winners and placed horses since this race was run

Win Strike Rate

Win & Place Strike Rate

Actual over Expected winners

Percentage of rivals beaten

Proform Race Guides v2

Tooltips

If you hover your mouse over various fields tooltips will appear, they are

Field Name	Tooltip Description
Date	Full race name and sponsor displayed.
Spd (par)	Class par figure for this race.
P	Full description of pace type.
Course / ….	Full course name, direction and characteristics.
Dist	Full race distance in miles, furlongs and yards.
Gng	Full going description.
Wgt/HG	Field explanation.
Pos / Ran / ….	Full in running comment for this race.
PRB	Field explanation.
Trainer	Explanation of the values under the trainer name.
SP	Explanation of the values under the SP.
C	Field explanation.
D	Field explanation.
CL	Field explanation.
G	Field explanation.
RT	Field explanation.
R	Field explanation.
O	Field explanation.
W	Field explanation.
R	Field explanation.
W	Field explanation.
P	Field explanation.
W SR	Field explanation.
WP SR	Field explanation.
AE	Field explanation.
PRB	Field explanation.

Tooltips can be turned off in [preferences](#).

Proform Race Guides v2

Sorting columns

You can sort columns ascending or descending.

Columns with more than one piece of data will allow more than one sorting choice.

To sort a column just click on the heading and a small pop-up will appear allowing you to choose the field to sort on

To reverse the sort just click the same heading again and then the same field again.

Your sorting choice is remembered at a user level.

Proform Race Guides v2

Moving and hiding columns

You can customise the field order and hide fields in the horse form tab using the edit columns button at the end of the horse details heading bar

Click on Edit columns and you will see a new screen

You can move columns by clicking on the ⟷ and holding the mouse button and then dragging it sideways.

You can hide and show fields by clicking the eye icon 👁 on and off.

The buttons on the top allow you to:-

    Save your changes

    Copy the column layout over from the All Form tab.

    Reset all columns back to default settings.

    Cancel the changes you are making.

Proform Race Guides v2

Important data changes

On the horse form tab between some form lines you can see various important data changes, such as: -

- First Time Head Gear
- Travelled A Long Distance to the Course
- Returned from A Break
- Change of Trainer
- Gelded First Run

They are displayed like this

11-2	147	3/4 btn 3.25l Rashaan 11-2	33%	David Mullins	Henry De Bromhead (58%) (70% / 68% / 68%)	(11/4
		---- 192 Day Break ---- ---- Travelled 216 to run ---- ---- Trainer Switch W P Mullins to Henry De Bromhead ----				
11-12	151	2/6 btn 0.5l Don't Touch It 11-12	80%	Bryan Cooper	W P Mullins (65%) (73% / 60% / 59%)	1 (4/1
11-4	144	2/11 btn 0.3l Buveur D'air 11-4	90%	David Mullins	W P Mullins (65%) (59% / 57% / 60%)	(25/1
11-7 h	144	8/14 btn 15.05l Altior 11-7	46%	David Mullins	W P Mullins (65%) (74% / 70% / 65%)	
11-7 h	0	3/9 btn 1.5l Long Dog 11-10	75%	Jacques Ricou	W P Mullins (65%) (71% / 70% / 71%)	
11-7 h	0	1/18 by 3l Lofgren 11-2	100%	Bryan Cooper	W P Mullins (65%) (72% / 70% / 65%)	
		---- 212 Day Break ---- ---- Trainer Switch Gordon Elliott to W P Mullins ----				
11-4 h1	0	1/22 by 6.5l Policy Breach 11-1	100%	Mr J J Codd	Gordon Elliott (56%) (57% / 58% / 62%)	
		---- 1st Time Hood ----				

You can turn these off in preferences if you do not wish to see them.

Proform Race Guides v2

5 – All Form

Columns Descriptions

The all form column descriptions are the same as the horse form column descriptions in the horse form tab apart from one extra field at the beginning for horse name which is a static field i.e. when you scroll sideways the horse name remains fixed so you know which horse you are looking at.

Tooltips

The all form tooltips are the same as the horse form tooltips.

Sorting columns

You can sort columns in the same way you can sort columns on the horse form tab.

Moving and hiding columns

You can customise the field order and hide fields in the all form tab using the edit columns button at the end of the filter heading bar

You can move and hide columns on the all form tab in the same way columns can be moved and hidden on the horse form tab.

The only difference is you can copy the settings from the horse tab using this button

Proform Race Guides v2

6 – Horse Details

The horse details section can be collapsed or expanded by clicking on the heading bar.

On the heading bar we display the following

Horse Name (Country of Breeding)   Age   (Foaling date   Colour   Sex)

HORSE DETAILS – Maxed Out King (IRE) 12yo (04/05/2008 ch g)	⚙ ☑ EDIT COLUMNS ∧	
Trainer: Sue Smith	**Owner:** Mrs S Smith	**Jockey:** Danny Cook
Sire: Desert King (IRE)	**Dam:** Lady Max (IRE)	**Dam's Sire:** Mandalus (IRE)

When expanded you can see the current trainer, current owner, today's jockey, sire, dam and damsire.

Proform Race Guides v2

7 – Filters

You can expand and collapse the filters section by clicking on the heading bar.

There are three tabs within the filter section grouping different types of form filters together. These are time, horse and race filters.
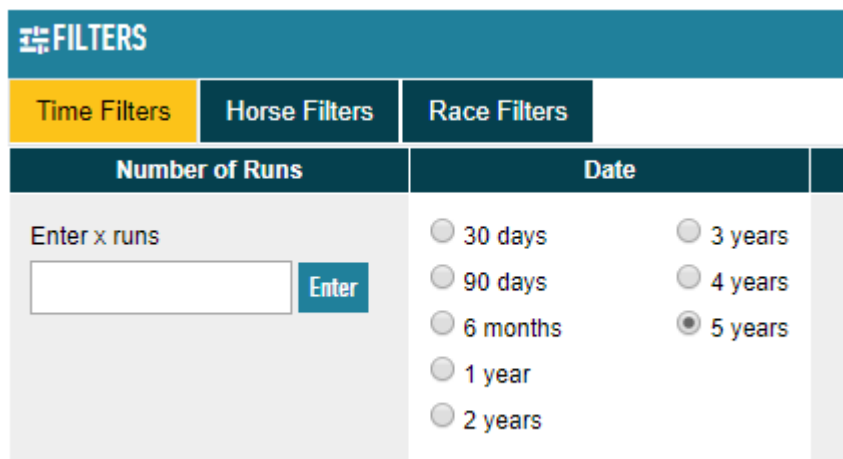

Filters can be combined, and any filters with tick boxes allow multiple choices.

Which areas do the filters affect?

The filters are used to

- Filter form on the horse form and all form tabs,
- Filter the trading data and benchmark data section on the horse form tab and
- Filter the trading data and benchmarks on the summary tab.

Time Filters

There are two types of time filters and you can combine them.

Number of Runs

You can filter by x number of runs. Enter the number of runs and click on the enter button to filter form for the most recent x number of runs.

Date

You can filter by various time periods from last 30 days form to last 5 years (default).

Proform Race Guides v2

Horse Filters

There are eight types of horse filters.

We have split them into two groups of four for ease of explanation.

The first four are

Finishing Position
You can choose to filter form from one of five options,

All form (default), winning form, placed form, wins and placed form and unplaced form.

Speed Rating
Use the speed rating filter to restrict form by speed rating achieved.

Default is all or you can enter a low and high speed rating value and click the Enter button to apply.

Par
You can quickly filter form to just form lines that have a speed figure above class par or better or lower than class par or worse.

DSLR
You can choose one or many days since last run filters by ticking one or more tick boxes.

Proform Race Guides v2

The second four are

Headgear	Travelled		Draw		Trading
Enter a headgear filter string	☑ All	☐ 51-100	☑ All	☐ 17-20	◉ All
[text box] **Enter**	☐ 0	☐ 101-200	☐ 1-4	☐ 21+	○ Dobbed
	☐ 1-10	☐ 201-250	☐ 5-8		○ Trobbed
	☐ 11-20	☐ 251-300	☐ 9-12		○ Both
	☐ 21-50	☐ 301+	☐ 13-16		

Headgear

You can enter any characters that form the headgear to filter form, i.e.:

Enter a 1 and you will only see form lines when a horse was wearing some kind of 1st time headgear.
Enter b and you would only see form lines when horses wore blinkers.

(NOTE: Wind surgery notifications are in the headgear field and denoted with the abbreviation WS)

Travelled

This is filter is for distance travelled to the course from their stable. You can choose one or many travelled distance ranges to filter on.

Draw

We have split the draw (stall) into groups of four. You can choose one or many to filter on and the form of horses will be filtered to the draw numbers chosen

Trading

This section allows you to filter form lines depending on how they traded.

You can filter form to show only form lines when a horse dobbed in a race or when they trobbed in a race or both.

(NOTE: A horse dobbs when it drops 50% or lower than it's Betfair SP in-running and Trobs when it drops 66% or lower than it's Betfair SP in-running)

Proform Race Guides v2

Race Filters

There are eight types of race filter.

We have split them into two groups of four for ease of explanation.

The first four are

Match this race

This section allows you to filter conditions that match or closely match todays race and you can choose one or more.

Course   – Form lines which don't match today's course will be filtered out.
Race Type   – Only form lines which match today's race type will be shown.
Distance   – Form lines which don't match *close to* today's distance will be filtered out.
Going   – Only form lines which match today's going will be shown.
Class   – Form lines which don't match today's race class will be filtered out.
Direction   – Form lines not matching today's course direction, left or right will be filtered out.
Runners   – Form lines with a number of runners within 25% of today's number of runners will be shown.
Trainer   – Only form lines with the same trainer as today will be shown.
Jockey   – Only form lines with the same jockey as today will be shown.

Type

You can filter on one or more race types.

Handicaps

You can filter on just handciap races, non handicaps or all (default)

No of Runners

We have split numbers of runners into groups of four and you tick one or more to filter on.

Proform Race Guides v2

The second four are

Going		Class		Distance		Course Char
☑ All	☐ Fm	☑ All	☐ 5	☑ All	☐ 1m4f-1m6f	☑ All
☐ Hvy	☐ Hrd	☐ 1	☐ 6	☐ 5f-6f	☐ 1m6f-2m	☐ Easy
☐ Sft	☐ Slw	☐ 2	☐ 7	☐ 7f-1m	☐ 2m-2m4f	☐ Galloping
☐ Gs	☐ Std	☐ 3		☐ 1m-1m2f	☐ 2m4f-3m	☐ Undulating
☐ Gd	☐ Fst	☐ 4		☐ 1m2f-1m4f	☐ 3m-3m4f	☐ Sharp
☐ Gf					☐ 3m4f+	☐ Stiff

Going

We have abbreviated the different going descriptions you can filter on and you choose one or more.

Hvy = Heavy
Sft = Soft
Gs = Good to Soft
Gd = Good
Gf = Good to Firm
Fm = Firm
Hrd = Hard
Slw = Slow
Std = Standard
Fst = Fast

Class

You can choose one race class or many to filter on.

Distance

We have split the distances into ranges. You can filter on one or more.

Course Characteristics

You can filter on five different course characteristics and you can choose more than one.

Proform Race Guides v2

Viewing, Removing and Resetting Filters

When you start slecting filters they begin to build up under the filter heading bar.

You can then remove individual filters by clicking on the next to each filter.

Alternatively, you can remove all filters by clicking the reset button.

Proform Race Guides v2

8 – Trading Data / Horse Form Benchmarks

Overview

This improvement to the race guides is extremely powerful!

It allows you to see a benchmark of data for horse form and trading metrics and then use filters to narrow down the form lines of a horse and then see a filtered comparison of horse form and trading metrics.

What this means in simple terms is you can find the conditions that a horse will have its best chance of winning under and/or it's best chance of trading well, or for that matter trading poorly.

A typical starting screen for any given horse would be screen:-

TRADING DATA / HORSE FORM BENCHMARKS – Maxed Out King

Form / Pace	In Running Avg / Dobbing & Trobbing											
BM vs FL	**W**	**P**	**R**	**W SR**	**WP SR**	**PRB**	**Form String**	**LR**	**PR**	**HR**	**P Tot**	**P Ave**	**Pace String**
Benchmark	4	3	17	23.53	41.18	57.89	80113136570613323	8	8	1	48	2.82	PPLLLLPPLPPHPLLPL
Filtered	4	3	17	23.53	41.18	57.89	80113136570613323	8	8	1	48	2.82	PPLLLLPPLPPHPLLPL

First thing to notice is there are two section headings, *Form / Pace* and *In Running Avg / Dobbing & Trobbing*

Each section contains various data fields and two lines

The first is a benchmark used for comparison and represents (in the image above) the last 5 years form (if the horse has 5 years form) for the selected horse, showing the fields discussed below.

The second line in the image above, labelled *Filtered*, is currently the same as the benchmark because no filters are turned on, but once they are it will be a filtered version of the data fields, like below.

FILTERS   C RESET

Match this Race: Course ⊗

TRADING DATA / HORSE FORM BENCHMARKS – Maxed Out King

Form / Pace	In Running Avg / Dobbing & Trobbing											
BM vs FL	**W**	**P**	**R**	**W SR**	**WP SR**	**PRB**	**Form String**	**LR**	**PR**	**HR**	**P Tot**	**P Ave**	**Pace String**
Benchmark	4	3	17	23.53	41.18	57.89	80113136570613323	8	8	1	48	2.82	PPLLLLPPLPPHPLLPL
Filtered	3	0	5	60.00	60.00	70.91	11061	2	2	1	12	2.40	LLPHP

You can see we have filtered the form to just runs at today's course, which has filtered the second line and colour coded the results (more on that later).

We will now move onto explaining all the columns in both sections.

Proform Race Guides v2

Form / Pace - Columns Descriptions and Colour Coding

⛁ FILTERS ↻ RESET													
Match this Race: Course ⊗													

TRADING DATA / HORSE FORM BENCHMARKS – Maxed Out King

Form / Pace	In Running Avg / Dobbing & Trobbing

BM vs FL	W	P	R	W SR	WP SR	PRB	Form String	LR	PR	HR	P Tot	P Ave	Pace String
Benchmark	4	3	17	23.53	41.18	57.89	80113136570613323	8	8	1	48	2.82	PPLLLLPPLPPHPLLPL
Filtered	3	0	5	60.00	60.00	70.91	11061	2	2	1	12	2.40	LLPHP

Here is a run-down of the fields and descriptions.

W	The number of wins.
P	The number of placed runs.
R	The number of runs.
W SR	The win strike rate %.
WP SR	The win and place strike rate %.
PRB	The percentage of rivals beaten.
Form String	The form figures (most recent on right). Wins are coloured blue.
LR	The number of times the horse LED early in a race.
PR	The number of times the horse was PROMINENT early in a race.
HR	The number of times the horse was HELD UP early in a race.
P Tot	The total pace points of the LR, PR and HR, given values of 4 for LED, 2 for PROMINENT and 0 for HELD UP
P Ave	The average of the total pace points, which is (P Tot) divided by number of runs (R).
Pace String	The pace abbreviation for each run (most recent on right). Wins are coloured blue.

Colour Coding

Form

The form section of the filtered line (W to PRB) will be colour GREEN if the filtered PRB figure is higher than the benchmark PRB figure, no colour if the same and RED if a lower value.

This will help you identify which filters show stronger patterns (GREEN) or weaker patterns (RED).

Pace

The pace section (LR to P Ave) will be GREEN if the filtered P Ave is greater then the benchmark P Ave, no colour if the same and RED if a lower value.

This will help you determine which conditions the horse may be more likely to lead in (GREEN) or be held up in (RED).

Proform Race Guides v2

In Running Avg / Dobbing & Trobbing- Columns Descriptions and Colour Coding

We will split this into two halves.

In Running Averages section.

BM vs FL	Betfair	Betfair	All Runs - Lows			Non Winning Runs - Lows			All Runs - Highs			Winning Runs - Highs

Here is a run-down of the fields and descriptions.

Betfair

SP		This is the average Betfair SP.
	Colour Coding	The filtered value will be GREEN if the average is lower than the benchmark, no colour if the same and RED if higher.
Place SP		This is the average Betfair Place SP.
	Colour Coding	The filtered value will be GREEN if the average is lower than the benchmark, no colour if the same and RED if higher.

All Runs - Lows

Low		The average in running low price for ALL runs.
Tick		The average ticks lower in running for ALL runs.
%		The average percentage drop in running for ALL runs.
	Colour Coding	If the filtered ticks lower is higher than the benchmark then Low, Tick and % will be GREEN, no colour if the same and RED if higher.

Non -Winning Runs - Lows   *Using non-winning runs can give you a clearer picture of which conditions a horse may trade well under, because it is not skewed by winning in running prices.*

Low		The average in running low price for NON-WINNING runs.
Tick		The average ticks lower in running for NON-WINNING runs.
%		The average percentage drop in running for NON-WINNING runs.
	Colour Coding	If the filtered ticks lower is higher than the benchmark then Low, Tick and % will be GREEN, no colour if the same and RED if higher.

All Runs - Highs

High		The average in running high price for ALL runs.
Tick		The average ticks higher in running for ALL runs.
%		The average percentage increase in running for ALL runs.
	Colour Coding	If the filtered ticks higher are higher than the benchmark then high, Tick and % will be GREEN, no colour if the same and RED if higher.

Winning Runs - Highs   *Using winning runs will help paint a clearer picture when looking for Lay2Backs, because you need to know if a horse goes onto win that it still trades higher in running.*

High		The average in running high price for WINNING runs.
Tick		The average ticks higher in running for WINNING runs.
%		The average percentage increase in running for WINNING runs.
	Colour Coding	If the filtered ticks higher are higher than the benchmark then high, Tick and % will be GREEN, no colour if the same and RED if higher.

Dobbing & Trobbing

All Runs - Dobbing & Trobbing						Non Winning Runs - Dobbing & Trobbing					
Dobs/Runs	SR%	P/L	Trobs/Runs	SR%	P/L	Dobs/Runs	SR%	P/L	Trobs/Runs	SR%	P/L
10/17	58.82	50.00	6/17	35.29	8.00	6/13	46.15	-26.00	2/13	15.38	-144.00
4/5	80.00	56.00	3/5	60.00	74.00	1/2	50.00	-1.00	0/2	0.00	-40.00

All Runs - Dobbing & Trobbing

Dobs/Runs	The number of times the horse as dobbed from the number of runs.
SR%	The strike rate of those dobbs over runs.
P/L	The P/L if using £20 stakes for dobbing each one.
Colour Coding	The three data fields above will be GREEN if the ALL RUNS DOBBING P/L is positive, no colour if the same and RED if negative.

Trobs/Runs	The number of times the horse as trobbed from the number of runs.
SR%	The strike rate of those trobbs over runs.
P/L	The P/L if using £20 stakes for trobbing each one.
Colour Coding	The three data fields above will be GREEN if the ALL RUNS TROBBING P/L is positive, no colour if the same and RED if negative.

Non-Winning Runs - Dobbing & Trobbing

Using non-winning runs can give you a clearer picture of which conditions a horse may trade well under, because it is not skewed by winning in running prices.

Dobs/Runs	The number of times the horse as dobbed from the number of runs.
SR%	The strike rate of those dobbs over runs.
P/L	The P/L if using £20 stakes for dobbing each one.
Colour Coding	The three data fields above will be GREEN if the NON-WINNING RUNS DOBBING P/L is positive, no colour if the same and RED if negative.

Trobs/Runs	The number of times the horse as trobbed from the number of runs.
SR%	The strike rate of those trobbs over runs.
P/L	The P/L if using £20 stakes for trobbing each one.
Colour Coding	The three data fields above will be GREEN if the NON-WINNING RUNS TROBBING P/L is positive, no colour if the same and RED if negative.

Dobbing Explanation

Stands for double or bust. You back at £20 and lay at £40 at half (50% lower) of the odds.

Example: -   Back odds 6.2, place £20. Then lay in running at odds of 3.1 for £40.
                If the horse does NOT drop to 3.1 or lower you lose £20.
                If the horse DOES drop to 3.1 or lower then you win £20 (minus commission).
                (it doesn't matter if the horse goes on to win or not)

Trobbing Explanation

Stands for treble or bust. You back at £20 and lay at £60 at a third (66% lower) of the odds.

Example: -   Back odds 9.0, place £20. Then lay in running at odds of 3.0 for £60.
                If the horse does NOT drop to 3.0 or lower you lose £20.
                If the horse DOES drop to 3.0 or lower then you win £40 (minus commission).
                (it doesn't matter if the horse goes on to win or not)

Proform Race Guides v2

9 – Summary Tab

The summary tab contains all the Trading and Horse Form benchmark data from both the Form / Pace and In Running Avg / Dobbing & Trobbing sections from the horse tab BUT for every horse in the race.

They are affected by filters in the same way.

Columns Descriptions

The column descriptions match those in the Form / Pace and In Running Avg / Dobbing & Trobbing sections on the horse tab, barring the headings, which are slightly consolidated so that when hiding columns, you can still see both headings.

Betfair SP	Betfair Place SP	All Low	All Tick	All %	Nwin Low	Nwin Tick	Nwin %	All High	All Tick	All %	Nwin High	Nwin Tick	Nwin %	All Dobs/Runs	All SR%	All P/L	All Trobs/Runs	All SR%	All P/L	Nwin Dobs/Runs	Nwin SR%	Nwin P/L	Nwin Trobs/Runs	Nwin SR%	Nwin P/L

You can see that we have abbreviation Non-Winning to Nwin.

Sorting columns

You can sort columns in the same way you can sort columns on the horse form tab.

Moving and hiding columns

You can customise the field order and hide fields in the summary tab using the edit columns button at the end of the filter heading bar
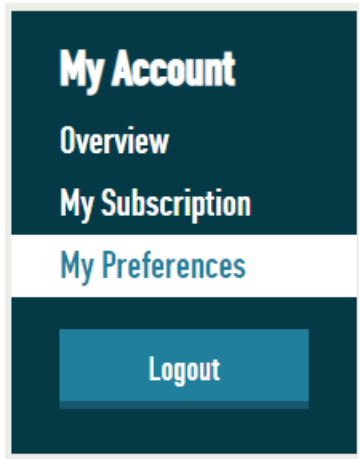

☑ EDIT COLUMNS ⌄

Proform Race Guides v2

10 – Preferences

 On various heading bars you can get to the race guide preferences by clicking on the cog icon.

You can also get to the preferences from the my account area (top right of website)

and then clicking on My Preferences

My Account

Overview

My Subscription

My Preferences

Logout

Clicking on the cog will open the preferences in a new browser window and you then have several options

Race Guide Settings

☑ Flip back to the Horse Form tab after changing a horse

☑ Show tooltips

Odds format ⦿ Fractional ○ Decimal

Show important data changes

☑ First Time Head Gear

☑ Travelled A Long Distance to the Course

☑ Returned From A Break

☑ Change of Trainer

☑ Gelded First Run

Save

The default setting for clicking on a horse name in the race card is to flip the display back the horse form tab, however you can change this with the first setting on this page.

You can decide whether you wish to display hover over tooltips with the second option.

Using the third option you can change the odds display from fractions to decimals, which will affect the display of power rating odds on the race cards and the ISP and price movements displayed on Horse/All form tabs.

The final options allow you to change, which, if any of the important data changes are displayed when viewing data on the horse form tab.
