How to Install (quick instructions)

- Open Proform and perform a backup from the options menu at the top of the software

- Then Close Proform.
- Login to the Proform website (you cannot download unless you are logged into your Platinum account).
- Download the following upgrade file [v1.92.build.2.exe](#)
- Save it.
- Run it.
- Following Install Instructions.
- When finished run Proform
- When you run Proform further upgrades will run
- Run Proform again and will say v1.92.build 2 on top title bar on top left.
- You will have a new shortcut on your desktop and any older shortcuts can be removed.
- DONE

How to Install (detailed instructions)

- Open Proform and perform a backup from the options menu at the top of the software

- Then Close Proform
- Login to the Proform website (you can't download unless you are logged into your Platinum account).

- Download the following update file [v1.92.build.2.exe](#)

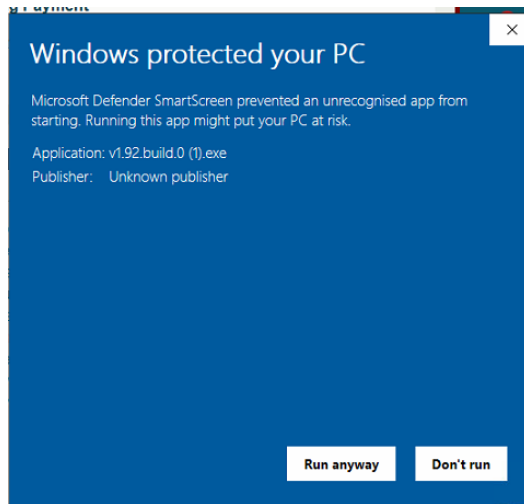

- Save it

- Run it
You may receive this message

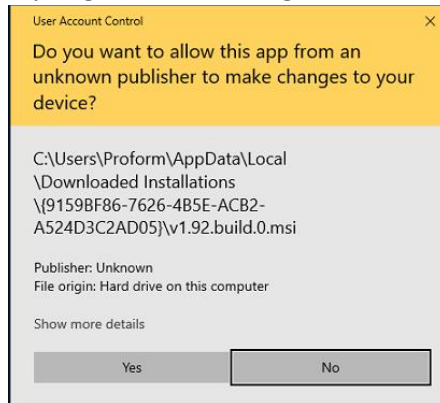

If you do just click on More Info

Then click on Run Anyway

○

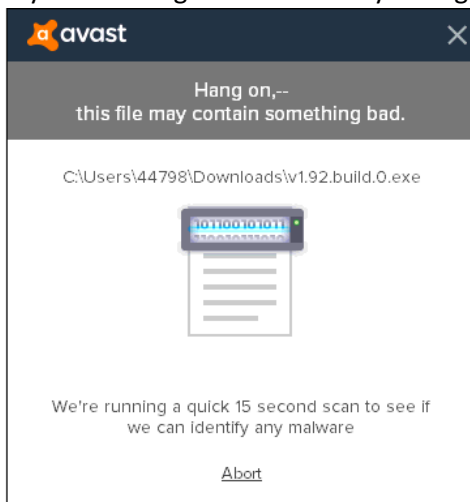

- If you get a UAC message similar this, click YES

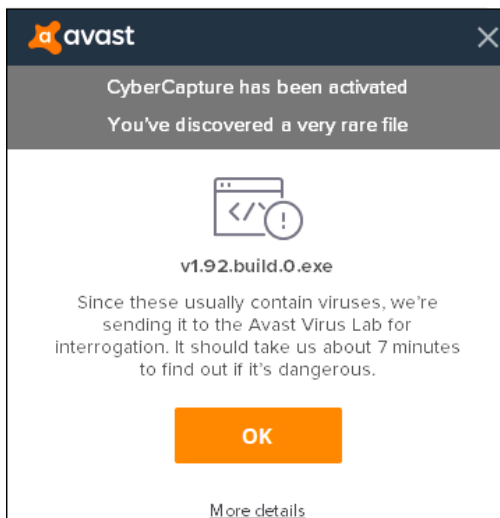

○

- Following Install Instructions
- When finished run Proform from the new shortcut on the desktop

If you are using avast antivirus you might see this

Just let it run and it will either be fine and open the setup or you might see this

Just wait for the test at avast to come back or click on more details and run anyway

- When you run Proform further upgrades will run

and will then say

- Run Proform again and will say v1.92.build 2 on top title bar on top left

- You will have a new shortcut on your desktop and any older shortcuts can be removed.
- DONE
